Importer of Powertex  
The Versatile Textile Hardener  
For All Art Objects, Mixed Media, Painting & Sculpture

# Powertex the Versatile Textile Hardener

## Powertex

Powertex is the versatile, environmentally friendly, weather resistant, water based, acid free, liquid textile hardener that is suitable for use with any porous material such as paper, fabric, cardboard, air-drying clay, concrete, ceramic, wood, glass, metal, dried flowers, etc...it works most effectively with 100% cotton.

If you like to recycle then you will love Powertex! Combine all the bits and pieces that you've been collecting for years (such as fabric scraps, old T-shirts, natural materials, paper, beads etc..) with a dab of creativity to create your own amazing artworks for indoors or outdoors. You name it and you can probably use it all...the sky is the limit with Powertex!!!

**Powertex is available in 6 colours including Transparent, Bronze, Terracotta, Lead, Ivory and Green.** It is easy to use - you can dip it, spray it or you can paint it.

**Add Powercolor Art Pigments** to Powertex to create your own colours (40ml of Powercolor is usually required to colour 1 litre of Powertex).

## Stone Art

Stone Art is like paper mache, except that it has a very specific composition so that when it's combined with Powertex it makes a self hardening clay that can be rolled, sculpted and moulded then allowed to air-dry. Stone Art sculptures may be rubbed and polished to obtain coarse or fine stone structures, with an identical stone imitation, including blue stone, bronze or terracotta. A beautiful crackle and torn paper effect can also be achieved by adding Powercolour to a slab of Stone Art.

## Powerprint

Powerprint is an effective laser print transfer medium that transfers images from a laser printer or photocopier to canvas, paper, fabric, ceramic, cardboard, metal and Powertex treated surfaces. Powerprint images can be super-imposed for special effects and used effectively when combined with Powertex, collage, Stone Art, paint, etc... An essential for the toolkit of any mixed media artist!

**DREAM... IMAGINE... CREATE...**  
with **POWERTEX**
